Elliot Galibert

Software Developer

About Me

I am a junior level developer from Espoo. I finished my core studies at Hive Helsinki in March. I have continued learning new languages such as Java and Python from University of Helsinki. I enjoy solving problems and learning new things about programming every day. My hobbies include football, gym and gaming.

Projects

- **Lem_In**

-Algorithm based program using a version of Edmonds Karp algorithm.

- **Corewar**

-A replica of the 90's game Corewar, done in C-language.

- **Libft**

-Own library of C functions recreated, such as: Printf, atoi, strjoin etc.

- **Grab_The_Ballon_D`ors**

-Small game made during Helsinki University courses.

-Done with Pygame and Python

Expertise

- Problem solving
- Team work
- Fast learner
- Determined
- Self-sufficient

Education

2021 – 2023 Hive Helsinki

- Peer-based learning method with heavy importance on code review. World class projects. Main language is C.
- Specialized on algorithm based program structures.

2023 University of Helsinki

- Python Programming basics and advanced
- Java Programming I
- Full Stack Open (current)

Technical Skills

- Programming Languages: C-Language, Python, Java
- Web Development: JavaScript, HTML, CSS
- Version Control: Git
- C-Language: Proficient in C-language programming with experience in developing algorithms and programs. Created Projects such as [Libft, Lem_In, Corewar] demonstrating strong problem-solving abilities and efficient code implementation.
- Python: Proficient in Python programming. Developed a small game with Pygame. Good understanding of effectively utilizing object-oriented programming concepts.
- Web Development: Currently learning JavaScript, HTML, and CSS to build modern and responsive web applications. Familiar with DOM manipulation and event handling.
- Version Control: Proficient in using Git for version control. Experienced in managing repositories, branching, merging, and collaborating with team members using Git workflows. Actively maintain personal projects on GitHub.

Work experience

7/2017 – 1/2020 Viasat Finland
Sales Representative
Telemarketing | Sales Startegy Planning | F2F Sales

1/2017 – 6/2017 Finnish Defence Forces
Signalman
Establishing Contact For Communication Towers | Safety Courses | First Aid Training

7/2016 – 11/2016 Transval Flow Oy
Warehouse and Terminal Worker
Collecting And Sending Store Products
Forklift Truck Usage
